

13 Kennard Street Westbrook QLD

4 2 2

Sensitively designed and 2014 built, this home offers a fabulous sense of light and space, together with glamorous but practical finishes that will delight you. Set on a large fully fenced 1,000m² block, it makes the most of its northern aspects and offers a family-friendly layout with the master suite located at the front of the home, the living zones centrally located and the other sleeping zones to the rear.

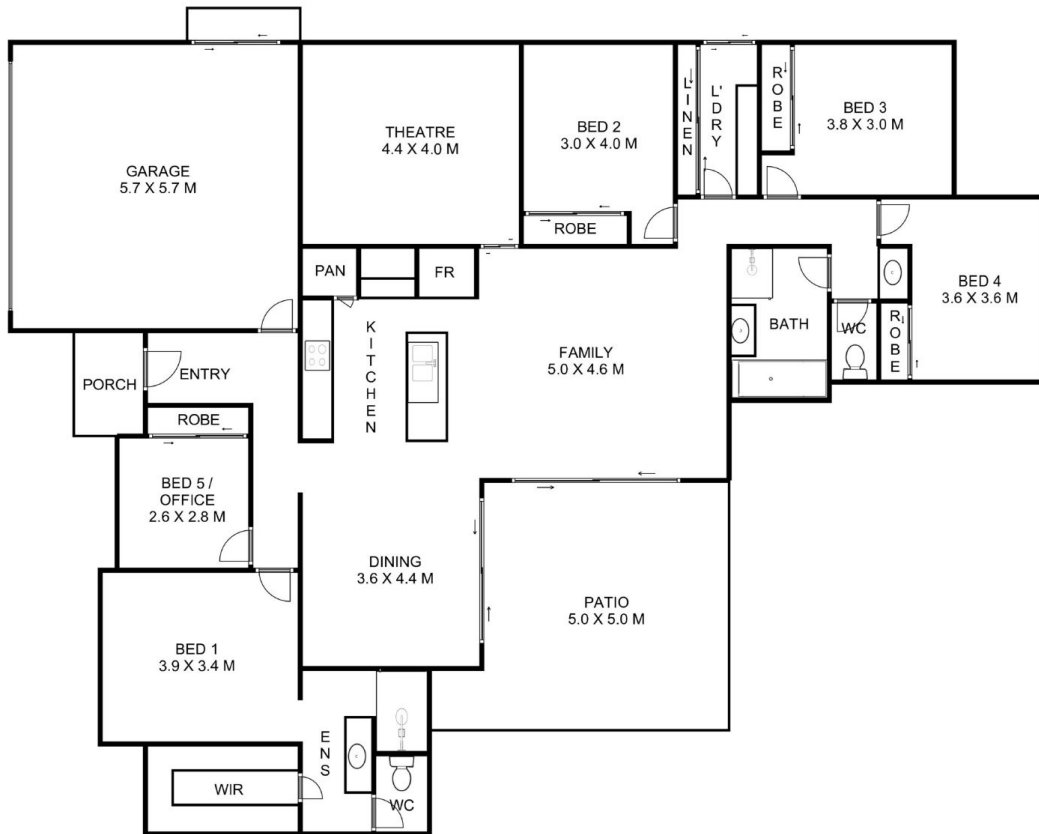

An easy flow between inner and outer spaces through large sliding doors opens the home to the views of Gowrie Mountain and the large rear yard. But the true success of this house is the way it demonstrates that a stylish home can match the demands of a busy family life.

- 5 spacious built-in bedrooms (master with a generous WIR)

Land Size : 1000 sqm
